Attn: Aheadgroups/Pankaj Gupta

Greetings,

The team here at Upper Limits wanted to reach out to express our gratitude for all the help Aheadgroups has provided us in regards to our platform upgrades and custom development. Sometimes these projects can be very difficult to see through, especially for our employees that rely on the system to be able to provide our products and services to our customers. It really is good to know that Aheadgroups is there for us. Jas, in particular, has been an asset to our progress forward and we really appreciate the guidance and support he has also provided. We look forward to a prosperous working relationship with your team.

With gratitude,

Matthieu Fortin
CEO
